

Everglades 243 Center Console

The Everglades 243 Center Console satisfies every angler's desire for a boat chock-full of fishing amenities. At the same time, it's also perfect for cruising with friends and family. In other words, it has it all.

And now the 243 CC takes everything that's innovative about Everglades' best-selling boat and adds a center console that is, simply put, sheer brilliance. The console features a number of new details, including a standard portable head unit, fiberglass-lined interior and comfortable ergonomics at the helm, including a custom foldaway footrest.

The impeccable hardtop (that sets the benchmark for the entire industry) incorporates overhead lifejacket storage, red LED lights, white spreader lights, built-in speakers and an electronics box. The console also includes Everglades' unique, easily adjustable sliding windshield within the stylish hardtop. You'll also love the multitude of recessed storage areas, the signature built-in dual-use seats and the combo leaning post/command seat with a swing-up footrest. And the aft 36-gallon

Specifications

| | |

NOTABLE FEATURES

- Vinylester resin laminate
- Under-gunwale PFD storage
- Under-gunwale 12V DC power outlets
- RAMCAP unsinkable construction
- Custom hardtop with red/white LED and spreader lights
- Sliding windshield
- Lockable rod storage

livewell with a clear hatch, the 75-gallon in-floor fish box, 22 rod holders, and port and starboard tackle lockers never fail to inspire serious anglers.

Like all Everglades boats, the 243 CC uses the company's patented RAMCAP construction process to create an unsinkable family fishing boat for the safest experience on the water. Rather than hope that the foam injection fills all the spaces with no air bubbles, RAMCAP molds the foam, then builds the boat around it for the highest-quality flotation system on the market today.
