Hobie Fishing Kayaks and New Livewell

The defining feature of Hobie's fishing kayaks — the Hobie Cat Company's patented MirageDrive™ — consists of pedals connected to two underwater flippers, much like penguins' wings, that lock and unlock from the kayak with the new "Click-and-Go" system. You control steering via a left-side, fingertip-activated rudder system, making it easy to cast to, hook and land fish while maneuvering to that secret spot. You can rotate the rudder out of the way for sliding through weeds in very shallow water as well as for transport or storage. The combination of the MirageDrive™ rudder system and the hull design ensures a stable ride and enables anglers to cover long distances with little or no fatigue, even against current or in windy conditions.

None of Hobie's fishing kayaks require a learning curve. Easy to use, stable and efficient, they offer alternatives to traditional fishing boats and provide enough speed to get to the best spots quickly. Hobie kayaks don't use gas, and they take you places powerboats can't — through rocky shallows, up narrow creek channels and over prop-snagging vegetation. All models maneuver smoothly on shallow flats, rivers, lakes and oceans, and they're easy to lift, transport and store.

Liven up your day on the water with the Hobie Livewell. Designed with serious fishermen in mind — from the tournament angler to the weekend warrior, inshore or off, freshwater or salt — this live-bait tank can handle almost any fishing situation imaginable. The Hobie Livewell is a must-have for those seeking to maximize their time on the water.

The water intake and discharge fit into the existing scuppers in the cargo area. With a high-flow, self-priming Attwood pump, a 6-volt, sealed gel-cell battery, an adjustable drain and a water capacity of 8 gallons, this tank accommodates virtually all common live baits.

Looking for somewhere to put those extra rods? Hobie includes three rod

holders to make this Livewell model one of the most functional pieces of fishing equipment you'll ever own. Three's not enough, you say? For those anglers who are ready for anything, Hobie leaves room for two more. The Hobie Livewell is ready right out of the box — just charge and go! The following Hobie kayaks accommodate the Livewell: Quest, Revolution, Sport, Adventure and Outback.

Since 1950, Hobie has been in the business of shaping a unique lifestyle based on fun, water and quality products. From its headquarters in Oceanside, California, Hobie Cat Company manufactures, distributes and markets an impressive collection of watercraft worldwide. These include an ever-expanding line of recreational sailboats, pedal- and paddle-driven sit-on-top kayaks and fishing boats, plus parts and accessories.
