Jupiter 39 Express

Jupiter Marine proudly introduces the all-new 39-foot Express with classic sport-fishing styling and yacht-quality construction. Recognizing the increasing popularity of its larger boats and the numerous requests for a full-cabin model, the team at Jupiter collaborated with the talented group at Donald Blount and Associates, resulting in Jupiter's first express.

At 39 feet in length and boasting a 12-foot, 6-inch beam, this boat provides maximum stability while surrounding you with comfort. This completely new hull design accommodates twin- or triple-outboard installations and cruises in excess of 30 knots.

The cockpit offers plenty of room for fishing, and the raised bridge deck features ample seating, with the helm located starboard and U-shaped seating to port. True to the express layout, the bridge may be fully enclosed, and with the optional air-conditioning, it provides a comfortable extension to the cabin below.

Consistent with the Jupiter product line, the 39 features an abundance of storage compartments, under-gunwale rod racks and enormous fish boxes and is built to exceed all expectations. The cockpit

caters to the true fisherman with a 45-gallon recirculating livewell, two 120-gallon fish boxes, a tackle-prep area with sink and a top-loading refrigerator/freezer.

In addition, an ice maker (standard) and refrigerator (optional) provide additional convenience on the bridge deck while you're fishing or cruising. An optional stern seat folds down at the transom but remains flush when not in use. Standard equipment includes a bow thruster, an anchor windlass, air conditioning and a generator.

Belowdecks, the cabin is strikingly beautiful and handcrafted with the utmost

attention to detail. Descend the teak steps, and you'll find exotic wood cabinetry, plush fabrics and a beautifully finished teak-and-maple sole. The galley provides all the comforts of home, featuring a Corian countertop with built-in cooktop and an under-counter refrigerator with freezer. The cabinet doors conceal a microwave and coffeemaker to provide maximum utilization of space.

The head offers the same sense of luxury and roominess with plenty of headroom and a private enclosed shower. Sleeping accommodations are plentiful with forward and rear berths and a U-shaped dinette that converts with the simple touch of a button. Added cabin details include a cedar-lined hanging locker and a flat-screen TV with DVD player and stereo system.

Elevating Jupiter to a new level, the 39 Express stays true to its roots with its posi-stern hull pad design, no-wood-no-rot laminate, timeless styling and good looks.
