

Midnight Express

37 Open Fish

People with a passion for fishing need a boat that can dependably get them to their favorite offshore fishing grounds and bring them back safely even when the weather kicks up. They want speed and fuel efficiency. And they want their boat outfitted with the tackle storage, rod holders, fish boxes and livewells to suit their quarry and style. From the Florida Keys to the Baja Peninsula, offshore anglers are choosing the boat with the lineage made famous by law enforcement and military agencies around the world: the Midnight Express 37-foot Open Fish. Because Midnight Express hulls have the strength, durability and hull design that allows them to reliably chase smugglers and terrorists in even the roughest seas, day in and day out, you can trust the Midnight 37 Open Fish in your quest for your trophy fish. All of their fish boats have spacious, level decks and enough cockpit space for multiple anglers and their gear. This configuration has become the boat of choice for a slew of tournament winners, as well for all those who just love to fish. Few other boats can get you to the fishing grounds and back faster, and few other boats are tough enough to get you out of the harbor while the others are skunked by the weather. Again, it's the legendary Midnight Express hull design, durable construction and

skilled workmanship that saves the day and helps make good fishermen into winners.

Custom building allows Midnight Express to design its 37-foot Open Fish for just the kind of fishing you like to do. And yes, they can rig your boat with a tower and second station that can even fold down for trailering! Livewells? The 37 can offer you up to 280 gallons in various multiple-well configurations powered by the company's exclusive pump system that never introduces air into the tank, no matter what the

sea state or heeling angle of the boat. Tell Midnight Express the type of outriggers you want, the number and size of livewells, your tackle storage requirements, type of fighting chair and all the other amenities that go into a successful fishing day for you. Triple or quad engines? No problem! Monster fuel capacity? You can expand your 37's fuel capacity to approximately 475 gallons. But keep in mind that Midnight Express boats have a unique hull design that already gives them industry-leading fuel efficiency. Fishing party after fishing party come back with the same reports: Smooth riding, a flat deck, simple cleanup and easy maintenance all combine to make fishing fun and productive. And on the Midnight Express 37 Open Fish, those anglers also come back with trophies. You can too.
