

Regulator Marine Regulator 30 Express

Regulator, renowned for building the finest offshore center-console fishing boats in the market, has further enriched the Regulator 30 Express for 2009. She was welcomed to the fleet with rave reviews and positive feedback last year and now sports new enhancements that have made this great boat even better.

“The 30 Express represents a transformation in offshore fishing, sporting the legendary soft, dry ride for which Regulator is famous, with extra comfort and all the functionality of a forward cabin,” says Regulator’s president Joan Maxwell. “This newly enhanced model now features a host of outstanding product improvements.”

According to Maxwell, the 2009 model upgrades are evident both abovedecks and belowdecks. “Our owners loved the idea of a sport-fishing boat with a functional and comfortable cabin,” says Maxwell. “It is the perfect boat for a weekend trip or a run to the islands, and it’s ideally suited for the avid angler looking for opportunities to fish in style, with family and friends aboard for fun. Keeping that in mind, we enhanced the living space with more comfortable amenities.”

Belowdecks, the cabin offers all-new redesigned upholstery featuring thicker, firmer cushions with more stylish designs and enhanced support. New high-intensity, LED cabin lighting provides softer illumination to highlight the new all-teak forward bulkhead. The result is a much richer cabin interior. It also sports a fully functional galley that includes a microwave oven and single-burner stove, a stainless-steel sink with durable Corian™ countertops and an AC/DC stainless-

Specifications

NOTABLE FEATURES

- Fiberglass hardtop with enclosure
- Midship double berth
- Refrigerator/freezer drawers
- Fully equipped tackle station
- Power-assist steering
- 1,000 btu air conditioning

steel drawer refrigerator/freezer. Plus, a convertible dinette has been raised to provide more space for meal service and overnighting. Regulator offers the latest in digital audio and video technology, with an optional entertainment system that features a 20-inch LCD TV with a built-in DVD player, an AM/FM radio and an MP3/CD player. The aft berth accommodates two or doubles as additional storage. To top it off, the Regulator 30 Express offers a convenient private head with shower.

Topside, the companionway door has been widened for greater egress. The 30 Express maintains the Regulator mentality toward sport fishing: A true “step-up/step-down” boat, the 30 Express offers everything you’d expect and then some, including a 35-gallon livewell, four gunwale-mounted rod holders, a rigging station and a transom fish box, plus a wider walkthrough transom door.

Discover flush-mounted electronic panels on the console designed to accommodate two 12-inch multifunction electronic displays. The helm-station chair is moved forward and raised, giving the captain better visibility and control. Family and crew will enjoy the spacious L-shaped area while at the dock or when running offshore. The aft mezzanine seating has been redesigned with a headrest integrated into the bridge-deck seatback, creating the ideal spot for observation during trolling or for relaxing and soaking up the sun.

Other enhancements include an aluminum hardtop frame, three windshield-wiper blades for better visibility during inclement weather, bridge-deck handrails and a new stainless-steel gunwale.

A boost of extra offshore confidence can be expected with standard twin Yamaha V-8, F350 outboard engines. These four-stroke motors utilize power steering and electronic controls, which make them highly maneuverable for their size and the ideal power plant for the Regulator 30 Express.
